Cotton Tree Inn  
10695 Auto Mall Drive  
Sandy, Utah 84070

**Sponsored by:**

Utah Department of Public Safety  
Utah Highway Safety Office  
Safe Kids Coalition

## The Problem

Child safety seats, when installed and used correctly, can prevent injuries and save lives. Yet, hundreds of children ride unrestrained every day. Of the children 14 and under that have been killed in auto crashes, 50% were not restrained by seat belts or child safety seats.

## Who Should Attend

Utah Child Safety Seat Program Coordinators, law enforcement officers, fire and EMS personnel, health care professionals, and other child passenger safety advocates. Commitment to child passenger safety and participation in community checkpoints is a must.

## Purpose

Child passenger safety has become increasingly complex and the need for people with a high level of knowledge and a standardized set of qualifications has grown. The National Highway Traffic Safety Administration standardized course for technical specialists enables you to gain knowledge and give lots of hands-on practice.

- Develop child passenger safety technical skills;
- Identify and correct misuse of child restraints;
- Serve as a community/state/organization resource;
- Educate others on child passenger safety issues;
- Reduce potential liability through standardization;
- Receive knowledge and skills to meet national certification requirements.

## Attendance Requirement

Attendance for the entire 40-hour course is required for certification.

## Registration

### Total cost is \$120 and includes:

- SAFE KIDS Certification Fee/Manual--\$60
- Utah Course Registration Fee--\$60

### 1<sup>st</sup> Step. . .

- Go to [www.highwaysafety.utah.gov](http://www.highwaysafety.utah.gov)
